

**New York's
Sound Off against the RNC!
Protest 2004**

What:

Scream, yell and play music articulating our protests against the RNC from windows, patios and roof gardens. These must be legal private spaces, protected by the constitution from intrusion. Between events confront the RNC insurgents vocally at every opportunity.

Where:

All boroughs, the tri-state area, especially Manhattan will be participating. Other cities should join in the din. A national raucous will be even more effective.

When:

Beginning from 7pm everyday to 7 am, Sound off! on every half hour, August 29th through Sept 3rd. At midnight the protest will shift from screaming on the half hour to continuous live music. Continue as far into the morning each day as possible. A tandem audible protest will be impossible to discount or ignore.

Why:

Everyone will be protesting and going to events but every person cannot attend every protest during the whole RNC. Also, the powers that be will arrest and contain as many as possible, at least fracture our efforts to amass and protest and the media will distort the events. When we are not at existing public events in the Madison Square Garden Area and other places, join in this mass, decentralized protest. All of New York will be one big sounding board!

SOUND OFF!!!

Please disseminate widely and freely!
